DETAILED ACTION

This office action is a response to the amendment filed on 5/18/2005.

Terminal Disclaimer

1. The terminal disclaimer filed on 7/19/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US PAT. 6,764,869 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Election/Restrictions

2. Upon further consideration, this application contains claims, including amended claims and newly submitted claims, directed to the following patentably distinct species of the claimed invention:

Species A, drawn to Fig. 5A for claims 25-28.

Species B, drawn to Fig. 5B for claims 35 and 36.

Species C, drawn to Fig. 5C for claims 35 and 37.

Species D, drawn to Fig. 5D for claims 25, 26, 29 and 30.

Species E, drawn to Figs. 12C-12D for claims 25, 26, 31 and 32.

Species F, drawn to Fig. 15A for claim 38.

Species G, drawn to Fig. 19 for claim 40.

Species H, drawn to Fig. 20A for claims 24 and 47.

Species I, drawn to Fig. 24A for claims 23 and 47.

Species J, drawn to Fig. 23 for claims 41-43 and 48.

Species K, drawn to Fig. 25 for claims 44-46 and 49.

Species L, drawn to Fig. 21A for claims 50 and 51.

Species M, drawn to Fig. 22 for claims 52 and 53.

Species N, drawn to Fig. 24B for claim 54.

Species O, drawn to Fig. 23 including number of times for failed the testing for claims 55-57.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 22 is a generic claim.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Friday between 7:00 AM to 3:00 PM.
